LSC progress chart

When you study with us, we will inform you of your progress with regular tests, class assessments and tutorials. Your teacher will take an interest in your progress, and help you work on any areas of concern. As your ability grows, you will rise through the class levels at the rate which suits you.

Our General English courses have terms of approximately 10 weeks, whilst our Prestige English courses have terms of approximately 7 weeks. This is why students on Prestige English courses typically progress quicker than students on General English courses.

Notes:
LSC Progress chart shows typical progress of a student with 100% attendance that completes all homework. Actual progress of students may vary from this.
