# OUR HISTORY

Kevin Kelly (Dublin), Stuart Rubenstein (London) and Margie Barker (Totnes) have over 40 years' experience teaching in and running language centres. They have built Annalivia School of Languages (Dublin), Camden College of English (London) and Totnes School of English (Totnes) into quality schools with excellent reputations.

With all of this experience the three Directors recognised the need for English language teaching to move forward and continue to innovate. So, in 2010 the three Directors decided to bring their three schools together under one umbrella. The Language in Group was born.

The Language in Group is committed to changing the face of language teaching. Language in Group schools are reinventing what happens both inside and outside the classroom so that our students can learn in a more effective way. This innovation will help us to achieve our mission;

*"To make language learning a stress-free, enjoyable and memorable experience where real results can be achieved."*

## OUR LEARNING PROMISE

We will help you to set and then reach English language goals which are based on your needs and achieved with the help of our expertise.

## QUALITY ENGLISH COURSES

All Language in Group schools are accredited so you know you will be taught by qualified and experienced teachers. The focus of your English course will be developing your speaking, listening, reading and writing skills and working on your individual needs. Time will be dedicated to grammar, communication, pronunciation and vocabulary building.

## THE BEST COURSE FOR YOU

A member of our team or local representative will help you to find the perfect course. You can always speak to us on the phone or by email.

## TUTORIALS

At the end of each week you will have a tutorial with a teacher in which your progress towards your goals will be assessed and your study plan modified as necessary.

## FIRST DAY

All our courses start with a full Monday morning introductory lesson into how to learn a language and how to make the most of your school experience. You will do a writing test and also have an interview with one of the teachers. The test is designed to see what language you can produce and to help the Director of Studies place you in the right class. You will then have a welcome meeting to introduce you to members of the team so you know who to talk to if you have a problem. Then there is a guided tour of the area followed by a special session with a teacher, who will explain the Language in Group teaching methodology and introduce ideas that will help you study.

Our aim is to help you learn as much English as possible during your stay with us and this introduction will give you the tools to make this possible.

## LAST DAY

On the last day of your course our academic team will meet with you to create a study plan for you to continue to develop your skills. This will ensure that you improve your English even after your course has finished. We will give you a certificate to show that you have completed a language course at a Language in Group school.

# THE LANGUAGE IN GROUP SYSTEM

Our aim is to help you to find the perfect English course - whether you wish to have more free time, more lessons, smaller classes or combine language learning with a cultural experience holiday.

Each day is divided into ten 45-minute lessons with breaks after every two lessons. Depending on the course you choose, you will be in class for four, six or eight lessons a day and this means you decide how intensive you want your studies to be. You can add one-to-one lessons to any of our courses.

The following information will help you decide which course to take to fit your personal situation and learning goals.

If you need any help with your choice then contact our advisors or your local representative today.

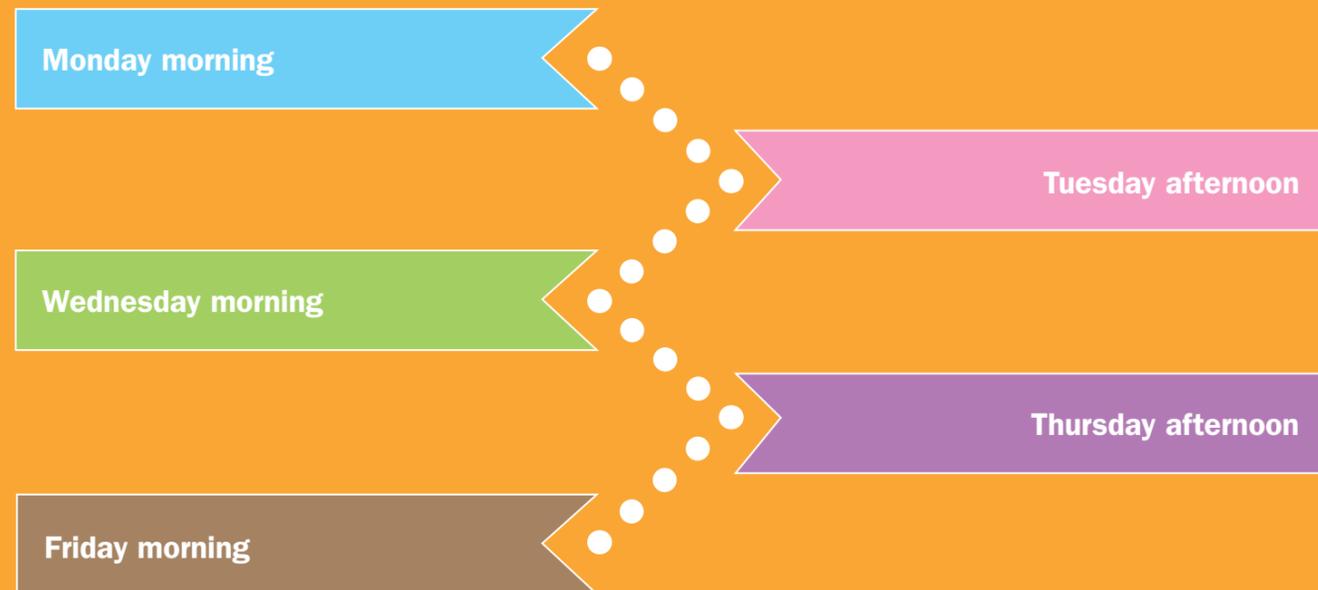

The Language in Group System is the result of listening to you – the people who study in our schools. You tell us that you are coming to Ireland or England to improve your English and to have an unforgettable experience. This includes visiting the most interesting cultural attractions in Dublin, London or Totnes as well as enjoying the unique nightlife – from pubs to restaurants to theatres and concerts - in each place. Some of you also tell us you want an intensive programme where you can study all day and others say they want the chance to find a part-time job.

The Language in Group System is the special timetable that is used in Language in Group schools which makes all of this possible.

With the Language in Group System you will have some classes in the morning and some in the afternoon. This is called the zig zag and it will help you to plan and make the most of your time.

You will also have the chance to join the early morning Language in Group Study Club, which meets twice a week. Over a tea or coffee, you will be able to practise English with people from other classes and levels in an informal group.

This is a sample timetable of a typical week on the zig zag system:

You may be on the other stream with lessons on Tuesday and Thursday mornings and Monday, Wednesday and Friday afternoons. Some courses will not operate on this timetable.

# GENERAL ENGLISH

## What is General English?

This course is the standard English course at Language in Group schools.

There are only 4 things you can do with a language – Speak, Listen, Read, Write – and on this English course you will study all of them. You want to move to the next English level and we will help you reach your goals and practise grammar, learn vocabulary and develop confidence.

To help you become a better communicator in English, your teachers will encourage you to speak as much as possible. Each day on a General English course is different and this will keep your motivation level high at all times. One day you might study from your course book and the next work with your classmates on role plays or projects using the internet.

## Why is General English for you?

- This course will help you move to the next English level.
- You can divide your day between studying English and free time.
- You want to become more fluent and confident in English.
- You need better English in the future for your work or university studies.

## Double General English

During set dates you can also choose to study Double General English. This is double the General English lessons. This means you will be studying English in class all day, every day from Monday to Friday. This course has 40 lessons, 30 hours a week.

## What is Mini Group?

Mini Group is a guaranteed small class with a maximum of 6 students and a minimum age of 23. This means your teacher will be able to give you as much attention as you need and you will be able to make more progress in a shorter time, in a class with more mature students. On every Monday your teacher will speak to each person in the class to see what they want to study and then design the weekly timetable around these requests.

The focus will be on General English, Social English and Business English. This will help you to develop your ability to communicate in English so that you can be confident in different situations.

## What are Cambridge and IELTS Exam English Courses?

Exam English courses combine General English with practice in the skills and techniques to be successful in Cambridge (FCE, CAE) or IELTS exams.

To pass all exams, you need to be good at English and the General English part of the course will help you develop your grammar and vocabulary so that you can reach the next English level. In fact, both these exams are exams that test your General English.

**Cambridge** – this is the group of exams which is recognised all over the world and is popular because it shows employers how much English you know. The course will prepare you for all 5 papers in this General English test (speaking, listening, reading, writing, use of English). Students take First Certificate (Upper Intermediate) or Advanced depending on their level.

**IELTS** – this is the exam which is accepted by universities in most English speaking countries. The course will prepare you for all 4 papers in this Academic English test. All students take the same exam whatever their level is and then receive a score from 0 – 9.

## What is Communicating with Confidence in English?

Do you ever feel that it is difficult to express yourself in English as well as you can in your own language?

In two weeks you will become a more effective communicator in English. You will learn how to use your voice, improve your pronunciation, get the rhythm of the language and develop your confidence as an English speaker.

Speaking in a second language can be challenging even if you have had years of grammar lessons. Being confident in a language means you can chat in any situation, give a presentation, tell a story, attend a job interview or just make new friends – in other words, use English effectively at work and socially.

Communicating with Confidence in English has been designed by Language in London and RADA Enterprises, which is part of the Royal Academy of Dramatic Arts (RADA).

You will join a long list that includes Anthony Hopkins, Ralph Fiennes and Bond girl Gemma Arterton. We can't promise you will become a famous star but you will go home at the end of the course feeling excited and positive about what you can do in English.

## Why is Communicating with Confidence in English for you?

- You really want to try something different and exciting – something that is more than just another English course.
- You want to go home at the end of the course confident that you have made progress.
- You believe that being confident in English will help you in the future.

**Picnics and sport in the park**

Pub nights and pub quiz nights

Every Sunday we organise an additional paid excursion and these are an extremely popular way for students to visit the local area; our Social Programme Manager leads guided group walks to the Dartmoor National Park, the South Devon Coast and beaches or to the historic cities of Plymouth and Exeter. We also help students arrange independent visits to Bath, Salisbury or Cornwall.

Don't take our word for it though - visit our Facebook site, Language in Totnes, to see what the students have been doing this week and for feedback from students who have studied in Totnes.

When travelling to a Language in Group school we will take your worries away and arrange your accommodation. There are a lot of choices in each location – so we will help you to choose the right place based on your priorities: living with a local family or host, sharing with other students, saving money, distance to travel and independence.

You will also pay a fee which guarantees support and help during your stay at a Language in Group school. Before you travel we will send you details of the accommodation, what you need to bring, who you will be staying with and how you will travel to school. In your first week at the school you will meet your accommodation counsellor, who will be responsible for sorting out any problems or finding an alternative if you need to move.

## ACCREDITATION

Language in Group schools are all accredited by the main bodies in Ireland and the United Kingdom.

This is your guarantee that the schools reach the right standards because they are regularly inspected to check the school building and facilities, teacher qualifications, administration, welfare and support of students. The inspection also checks that the information you find on our website and in our brochure is accurate. This means that you can be confident that what you see online and in our publicity material is what you find when you arrive at your Language in Group school.

Accredited by the

Language in London and Language in Totnes are accredited by the British Council and are members of English UK.

Language in Dublin is accredited by the Advisory Council for English Language Schools (ACELS) in Ireland.

Education is at the centre of everything we do and everything we believe in. Language learning provides a key to open the door to a world of opportunities. At our schools we take great pleasure in seeing our students develop skills that will help them meet more people, find a better job and travel. The staff at Language in Group schools are also committed to training and developing and are encouraged to take courses to improve in their field. But not everybody is as lucky as we are.

You will be pleased to know that this year we will be donating 1 Euro for every student who takes a course at any Language in Group school to the Society for Poor People Development in India. The money will go to a project to provide evening classes to some of the poorest people in southern India.

Quite simply this means that when you learn, somebody else has the chance to learn too.

In addition, every year, one newly qualified teacher from the Dublin CELT course goes to India to work for three months on the project.
