

## London

London is the commercial, political and cultural hub of English life, the seat of government and the headquarters for the country's major companies, embassies and media organisations. The city also features an endless array of cultural and historical attractions, including world-famous buildings, theatres, restaurants and shops. Our brand-new, purpose-built centre is situated in Greenwich, which is a lively, student-centred area with dozens of cafés and clothes boutiques. The centre also offers some of the best residential accommodation available to students and is only 20 minutes from the city centre.

Our centre (artist's impression)

### Fact file

- Population: 8 million
- Commercial and political centre of the UK
- World class cultural attractions
- Superb variety of entertainment
- 1 hour 15 minutes from London Gatwick Airport
- 1 hour 45 minutes from Heathrow Airport
- Two hours from Stansted Airport

The world's leading cosmopolitan city

### The college

Located close to the heart of Greenwich, our centre combines Bellerbys College with that of Embassy CES, our sister English language training organisation. It is brand new and purpose-built to our specifications. The campus has been designed to provide students with first-class facilities in a thoroughly modern setting. It features a 120-seat cafeteria, medical rooms, library, bookshop, over 30 classrooms and several IT suites – fully equipped with computers for internet and email access.

### Accommodation

#### Homestay

As London is a large capital city, our host families here tend to be located a little further from the campus than at other centres. Like our other centres, our London host families offer a warm welcome and an environment conducive to study.

#### Residential

Our residential facilities form part of the new 950-bed University of Greenwich student village, giving students the opportunity to live amongst UK university students. Accommodation options at Greenwich are first-class and include 250 brand-new, ensuite study bedrooms.

### Facilities include:

- 33 classrooms
- Superb accommodation
- Large cafeteria
- PCs for student use
- Large, well-equipped library
- Bookshop
- Medical room
- Art room
- Science laboratories
- Student Service Unit
