# Roedean

THIS STUNNING AND HISTORIC ALL-GIRLS BOARDING SCHOOL OFFERS SUPERB VIEWS OUT ACROSS THE ENGLISH CHANNEL AND OFFERS A WEALTH OF EXCELLENT ON SITE FACILITIES.

We are pleased to introduce Roedean as our third MW Summer School location for 2009.

Originally founded in 1885 Roedean School is one of the most prestigious girl's independent boarding schools in the UK. It moved to its current, purpose-built site in 1898 and offers excellent facilities, including 40 dedicated acres of playing fields and space for leisure activities, several tennis courts, a large indoor sports hall and a fabulous indoor swimming pool with spectacular views out to sea.

This beautiful school also provides art and dance studios, comfortable boarding houses and a modern dining room.

The school is located in a stunning setting, a short bus ride away from the popular seaside city of Brighton and overlooks Brighton Marina, giving it easy access to the Sussex towns of Hastings and Eastbourne, as well as Gatwick airport.

Roedean's facilities and location make it a great choice for a summer vacation course beside the sea.

Recommended age range: 10-17

# Kingham Hill

KINGHAM HILL SCHOOL IS LOCATED IN THE HEART OF THE COTSWOLDS AND WAS PURPOSE BUILT AS A BOARDING SCHOOL IN 1886.

It has since become a popular and well-established independent school providing outstanding sports and teaching facilities

The school itself is a magical old traditional English boarding school combining a mixture of old architecture and modern facilities. Its superb on-site sports facilities include a state-of-the-art dance studio, modern indoor swimming pool, school gymnasium, several tennis courts and extensive playing fields for outdoor sports.

In total there are seven boarding houses on site, each very different in character and size. All students share meals in the spacious school dining room.

The school itself is located within a very safe and closed campus, close to the town of Chipping Norton. It is within easy reach of the city of Oxford and Shakespeare's home town of Stratford Upon Avon and is the perfect setting for those students wishing to get away from it all and get involved in the many sports and academic courses we have to offer.

Recommended age range: 8-16

I will never forget this summer. Everything was really excellent, especially the staff. They are really friendly, funny, interesting people.

Meals take place in the spacious dining room and students are accommodated in six renovated boarding houses.

The school itself is located just on the edge of the historic town of Warminster in Wiltshire, close to the roman city of Bath, the cathedral city of Salisbury and the historic Stonehenge. Warminster School's magnificent setting in 50 acres of grounds provides the perfect location for sports and outdoor pursuits of all kinds.

NO MATTER WHICH COURSE YOU CHOOSE  
YOU'LL HAVE THE TIME OF YOUR LIFE

We encourage you to book through one of our recognised agents or representatives. They will advise the best course for you and help with all admissions procedures. They may also be able to arrange cheaper travel to England than you could yourself.

If you don't know a representative, please contact us here in England. Fill in the booking form, tick your course dates and fax the information to us.

## Embassy i-study

Embassy i-study is an online learning package. It can be purchased for a one-off fee of £50 and entitles the student to a twelve-week online subscription. It focuses on improving a student's listening and speaking skills and can therefore be an aid to prepare for summer school or a way to continue the progress made when the student returns home.

See the enclosed Booking Guide for further information.

## Together we make a difference

As a global education company sourcing the majority of its business internationally, Study Group recognises the disparity in educational provision across the world and seeks to make a difference by funding the construction of schools in disadvantaged communities. Study Group believes that the funding of school building in under-developed countries contributes to the preservation of the social structure for future generations, and that this is entirely in line with Study Group's identity as a global provider of education.

Study Group also recognises its responsibility towards protection of the environment and aims to foster among its staff, suppliers, customers, shareholders and communities local to its operations an understanding of environmental issues in the context of its business. Our collective task is to ensure that we continually improve the environmental impact of our total global activities.
