Quantum English

How will the Quantum Method help me improve my English?

Each day we teach you some new words or grammar, so you won't want to miss any lessons. And then we practise those words over the next few days. You won't forget what you've learnt and your knowledge and confidence will grow quickly. Thousands of students will tell you the same.

Our aim is to get students speaking. Avalon's unique Quantum method gives students enough confidence to go out and communicate in English after their very first week.

Each time you leave the classroom your English will be more advanced. How do we do this? It's simple. Our teachers are trained to listen to your English and improve it. They ask you a question. You answer, and if there are any mistakes in your sentence, they correct you.

The method is suitable for every level from beginner to advanced. There are four books and each book takes around twelve weeks to complete. By the end of Book 1 students can speak with confidence in the present, past and future tenses. Students of all levels can join Avalon classes at any time.

Useful exercises are included at the back of each book to help students remember new words and grammar. CDs of the books are also available for students to use for self-study.

Exams

Avalon is a certified provider of preparation courses for Cambridge exams. We offer preparation classes in Cambridge First Certificate in English (FCE) and Cambridge Advanced Certificate (CAE) all year round.

FCE - What is Cambridge First Certificate?

Attaining a certificate from a department of the world-famous and historic University of Cambridge is an achievement and a reward in itself. However, there are many other benefits to taking FCE:

- an FCE certificate is valid for life
- FCE is truly international, recognised around the world for business and study purposes
- thousands of employers, universities and government departments officially recognise FCE as a qualification in upper-intermediate English / CEFR B2 Level
- FCE gives you a pathway to higher qualifications
- FCE's 'Can Do' skills give you the confidence to use English in real situations

CAE - Why take Cambridge Advanced English?

CAE gives an in-depth assessment of your ability and fluency at level CEFR C1/C2. This is the foremost qualification to prove that you have mastered English. You are well-placed in dealing with complicated academic and professional tasks in English.

The course empowers you to:

- follow any academic course at university level.
- communicate effectively at managerial and professional level
- participate with confidence in workplace meetings or academic tutorials and seminars
- carry out complex and challenging research

Course Duration: We suggest 3 months preparation for each exam, however your success depends on your starting level, individual ability and extra self-study.

IELTS

Avalon offers preparation classes in Academic IELTS, which is the most popular exam for students intending to study at graduate or postgraduate level or for professional registration purposes. Our IELTS teachers have a minimum of two years' teaching experience and a special interest in academic English. Students have mock exams every six weeks and are given an individual progress report after each exam.

Course duration: We suggest a minimum of 3 months preparation for a student who has already reached advanced level. For a higher score, such as 7.5 or 8.0, 6 months may be required, depending on natural ability. At Avalon, upper-intermediate students can join pre-IELTS classes and Academic Skills to fast-track into our IELTS exam preparation class.

Business English

What is a credit crunch?

When is a problem a crisis?

What do we mean by a bear market?

How important are ethics in the fashion industry?

Issues related to business and economics are increasingly among the hottest topics in the media and students who imagine that business English has no relevance to them will enjoy expanding their skills with topics that have a direct impact on their everyday lives.

Students with different levels of experience from both business and non-business backgrounds can contribute equally either sharing their experiences and knowledge or providing fresh ideas.

Market Leader is a lively, interactive course perfect for those who want to improve their communication skills in realistic business situations and includes discussions, case studies and workshops using authentic material on a wide range of thought provoking, current topics.

■ Language work includes: business idioms, conditionals, passives, multi-word verbs, linking expressions, prefixes, dependant prepositions, noun phrases, adverbs of degree, cohesion and many more.

■ Topics include: Cultural Awareness, Job Satisfaction, Project Management, Sustainable Development, Customer Service, Product Branding, Advertising, Ethics and more.

■ Helps develop essential business skills such as negotiating, brainstorming, networking, interview techniques, presentations, meetings and writing formal correspondence.

Suitable as both a long-term or short-term course, Market Leader looks at a different topic each week starting every Monday. Students can choose how many weeks they want to study, but one course book takes approximately 12 -15 weeks to complete.

The class uses the Market Leader course book which is designed to build the professional standard of language required to communicate in the modern business world and additional material is also supplied by the teacher.

The price of Business English is the same as a General English course and students can change to Business English during their course.

The course is suitable for upper-intermediate and advanced levels. Elementary to advanced levels are available for One to One classes and closed groups.

Class times*- 10:30 – 12:20 or 13:30 – 15:20

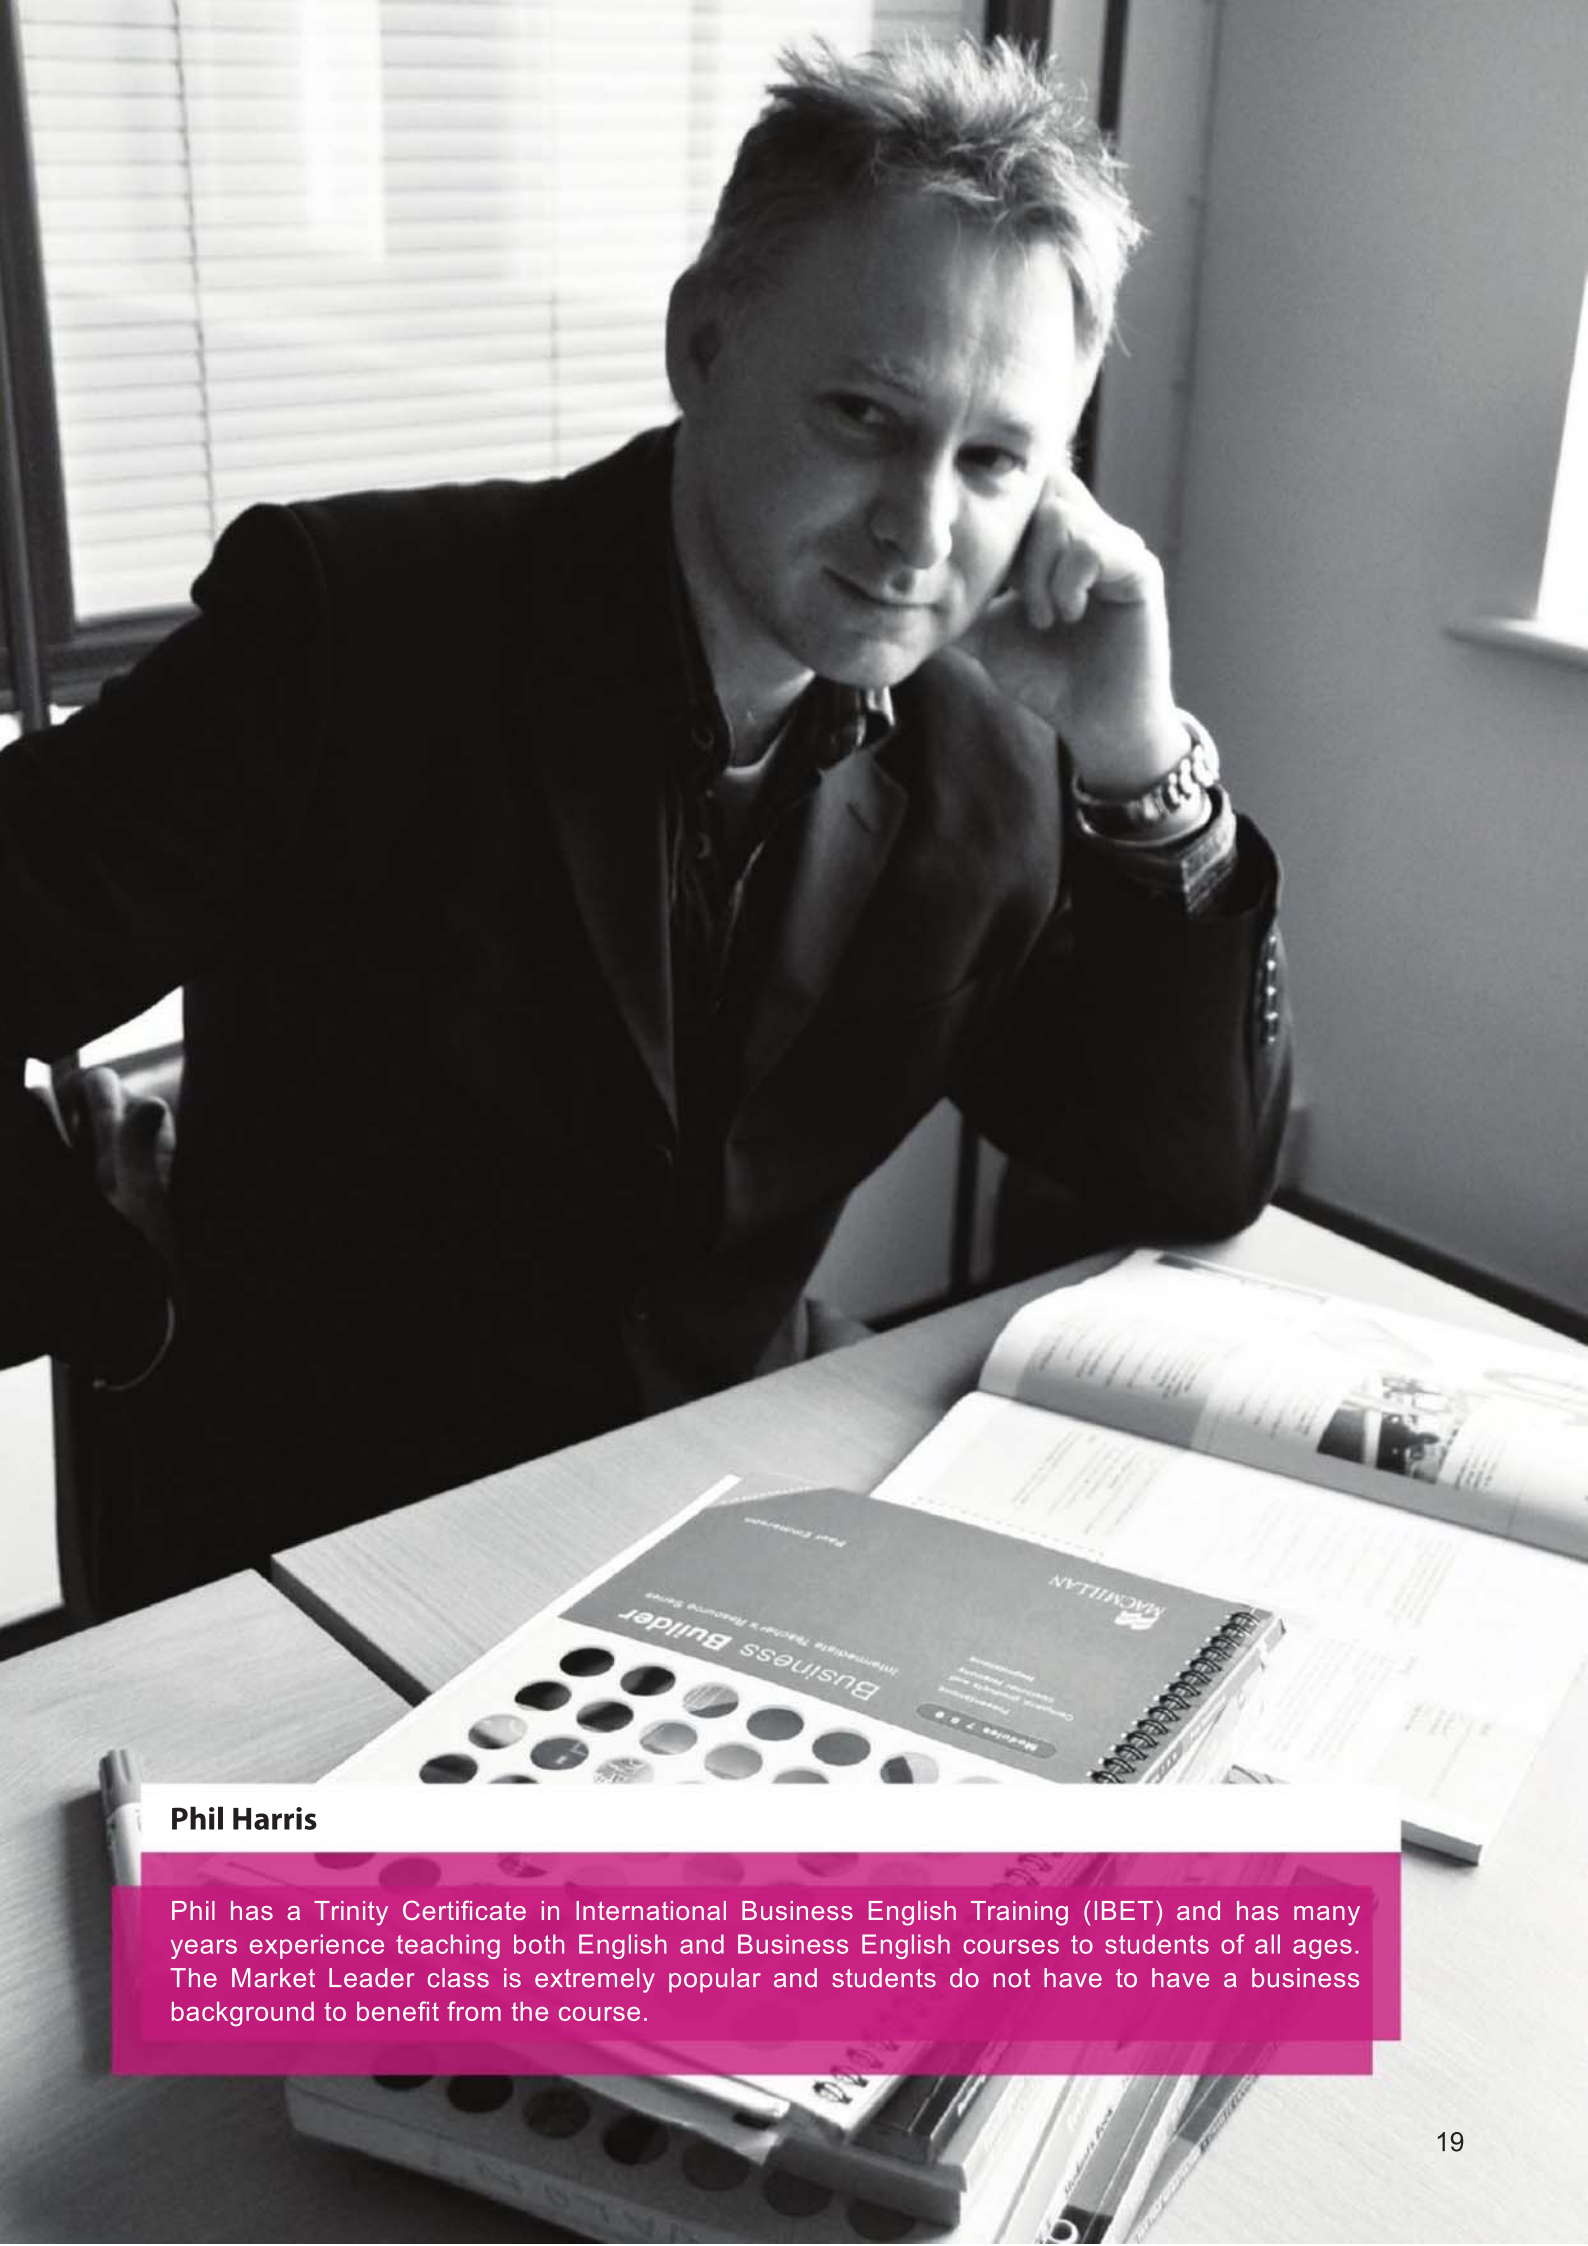

*depending on student's level

“

I was first attracted to working at Avalon because it was immediately obvious how friendly and relaxed the students and teachers are. In my classes, I know students' confidence in their ability grows as they progress through the four books that form the focus of Avalon's method. In my Advanced Skills class we use authentic materials (such as real news broadcasts, film trailers and interviews) to practise real-life English at a very high level. I like the focus on speaking at Avalon as it's undoubtedly the most important aspect of learning a language. If your main aim is to communicate in English and you want to have lots of opportunity to speak and be corrected, I would definitely say Avalon is the right place for you to progress in your studies. And what better place is there to do this than London?

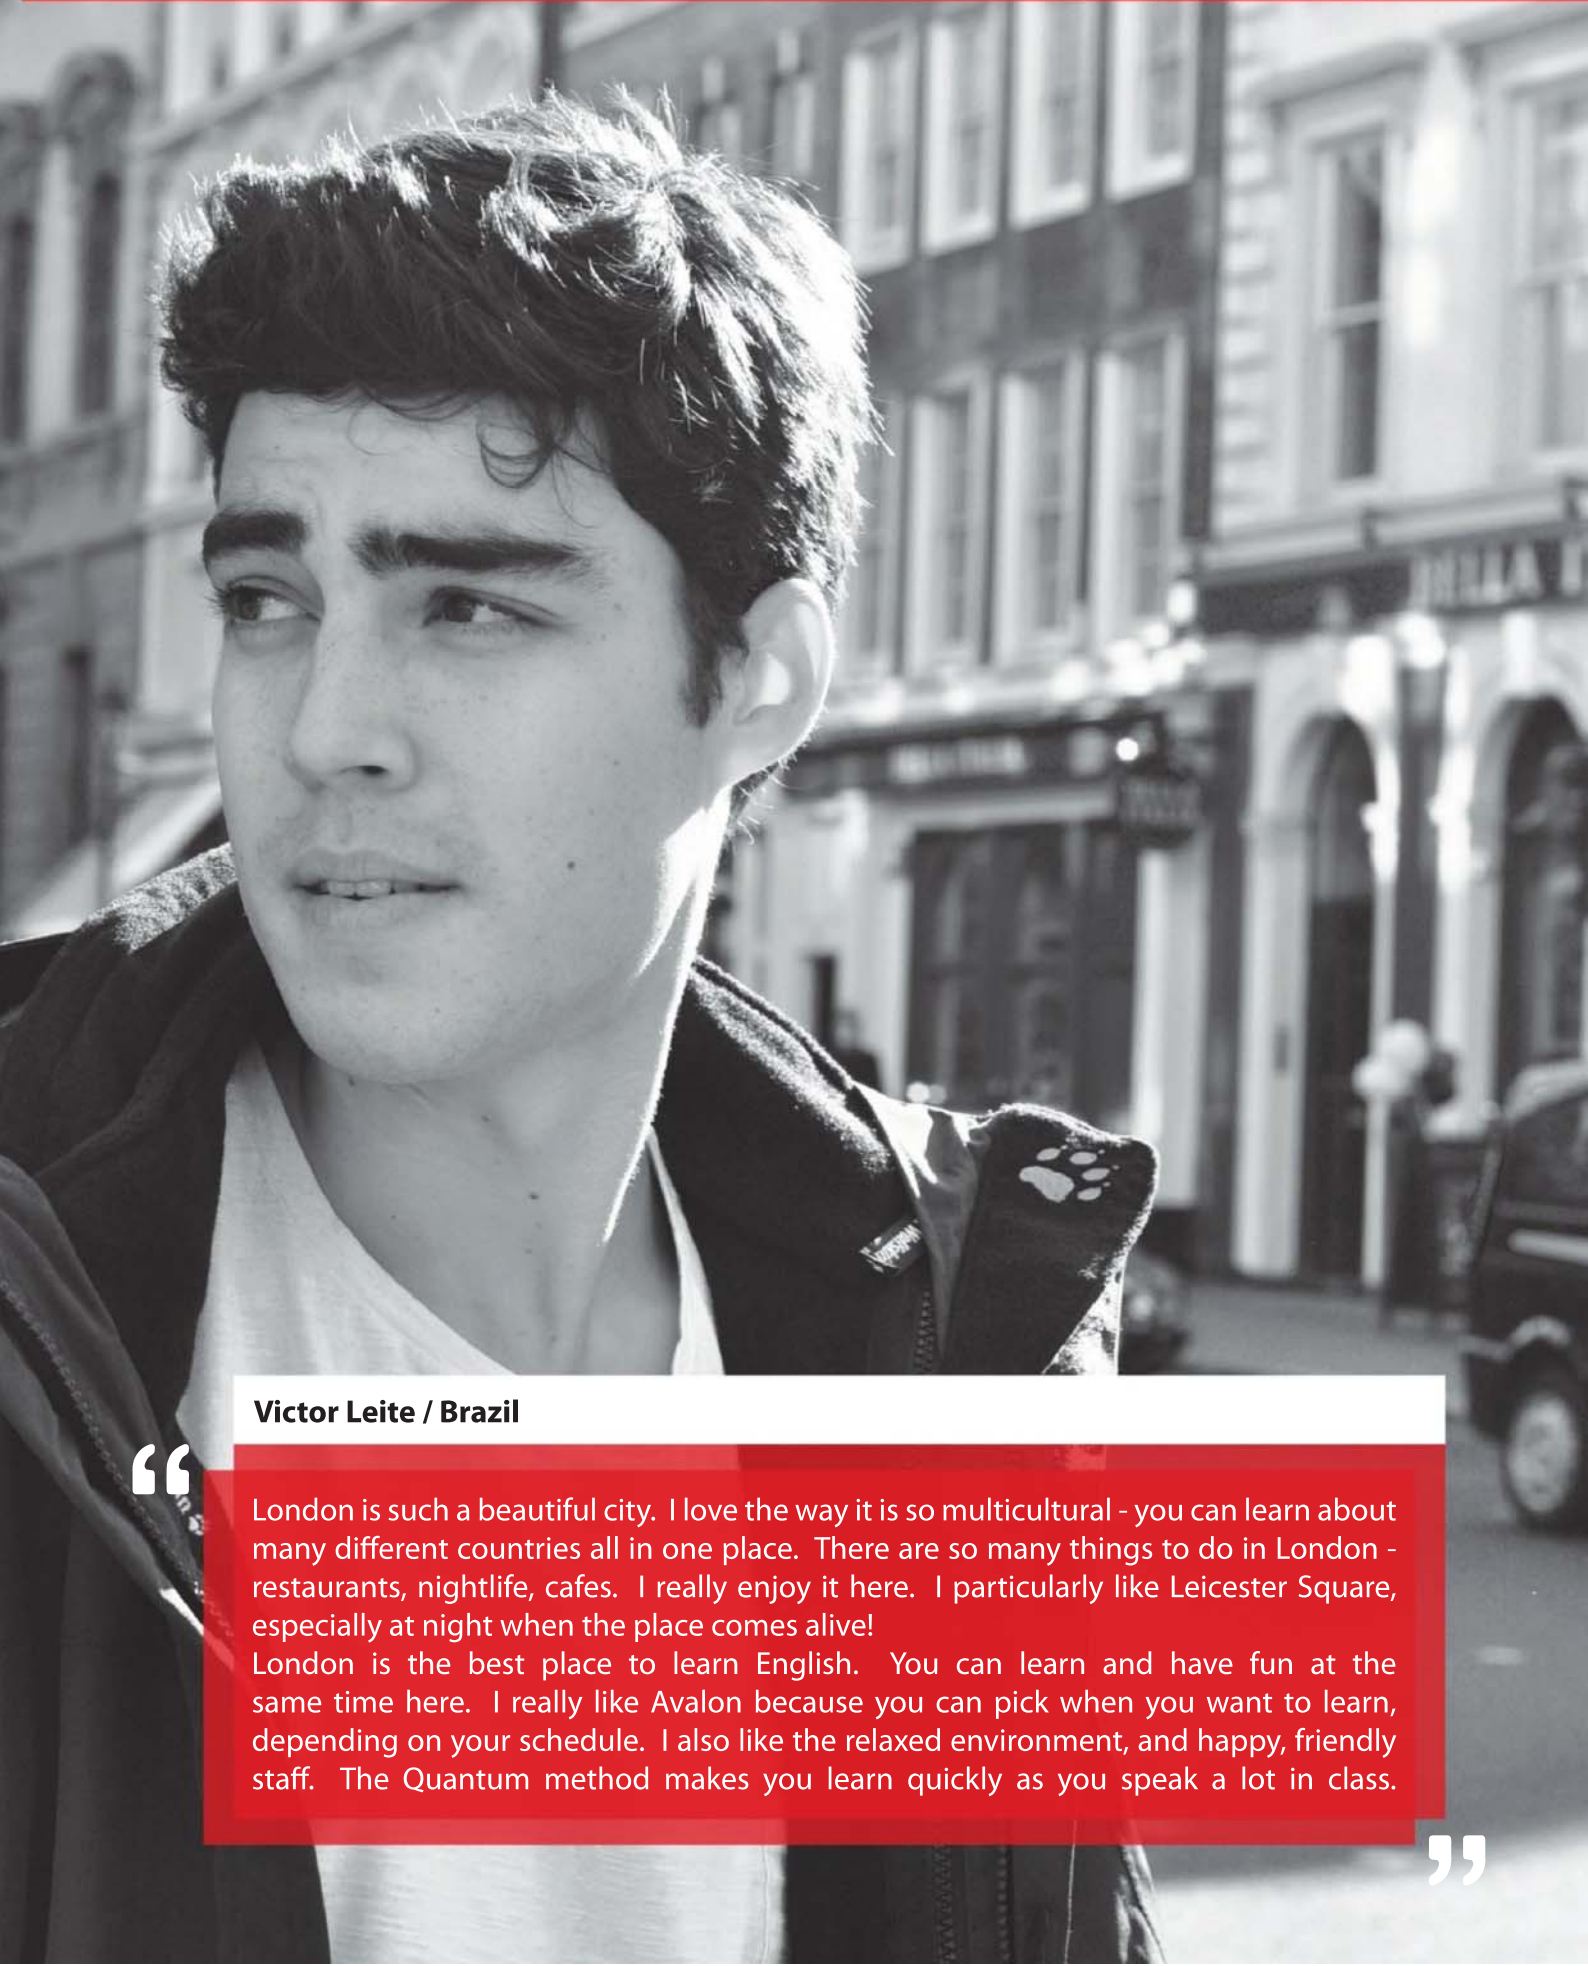

”

Sam Wadsworth

Sam is one of Avalon's newest teachers. He joined the school in April 2010 and has become a favourite for many students due to his energy, sense of humour and enthusiasm. All Avalon teachers receive special training in correcting students' mistakes and pronunciation. We want our students to speak as much as possible in class, so teachers have to be fast and clear when presenting new words and correcting student errors. That's why so many students recommend Avalon to their friends.

“

London is such a beautiful city. I love the way it is so multicultural - you can learn about many different countries all in one place. There are so many things to do in London - restaurants, nightlife, cafes. I really enjoy it here. I particularly like Leicester Square, especially at night when the place comes alive!

London is the best place to learn English. You can learn and have fun at the same time here. I really like Avalon because you can pick when you want to learn, depending on your schedule. I also like the relaxed environment, and happy, friendly staff. The Quantum method makes you learn quickly as you speak a lot in class.

”

Triinu Hiob / Estonia

“

The best way to build confidence in speaking a foreign language is to have classes in small groups of students of the same level. I came to Avalon with the particular purpose of improving my English speaking skills and my stay at Avalon, even though for only two weeks, has definitely exceeded my expectations. The teachers here are absolutely charming, and communication with people from various countries broadens one's general attitude and understanding of the world.

”

Masuhiro Konishi / Japan

I love travelling – I've been to most countries in Europe and Asia, and have visited the States several times. I needed English while travelling and now I can use what I have learnt everywhere – I can even complain in English! Although I didn't enjoy studying English when I was at school – I found it very difficult – studying at Avalon was really enjoyable. The teachers and staff are so kind. I couldn't speak when I arrived and I failed my first test at Avalon because I was nervous. Since then I've studied a lot every day and now I'm on Book 3. I hope to study at Avalon when I return from Hong Kong and I would recommend the school to anyone.

Irene Esposito / Italy

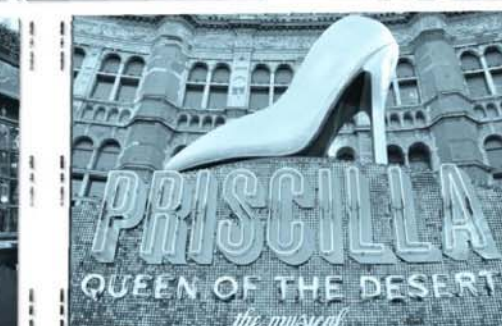

“

London is full of opportunities, if you know where to look. The people are very polite here, and they have a great attitude. It has the best education in the world and it is the best place to learn in an international environment. It is also a very sociable place with lots of bars and good places to eat in the evening. Avalon is great because it's flexible - it's perfect for me as I work and study at the same time. I like the lessons as there is lots of speaking and you talk about interesting subjects.

”

FAQ Frequently Asked Questions

Are all teachers native English speakers?

Yes, all Avalon teachers are native English speakers. They are from the UK and occasionally we employ teachers from Ireland. It is beneficial for students to hear a variety of accents.

How many students are there in a class?

The maximum is 12 students in a speaking class and 15 in general skills and exam preparation classes such as IELTS, FCE & CAE. There are a maximum of 15 students in a Business English class.

How many lessons can I study?

You can study for as many lessons as you choose, between 5 and 25 a week. If you require a General Student Visa you must study a minimum of 15 hours per week, Monday to Friday, before 6pm.

Why are Afternoon classes cheaper than Anytime?

Anytime students have more flexibility to change their classes and are also entitled to more holiday, up to 6 weeks depending on the length of the course.

But remember, England has 8 public holidays a year, and no students lose any tuition time as this is given as extra holiday.

What will happen on my first day?

Our reception staff will provide information about the school. You will have a short speaking test with a Senior Teacher and you may be given a written level test depending on your course. You will be given a timetable with your classroom numbers and can start classes straight away.

Do I need a course book?

You will need to buy the course books. For speaking classes, you can buy a Quantum book from reception. For other classes your teacher will show you which book to buy.

Our school is located near several large book stores. A book costs between £12 and £25 depending on your course

Can I change my classes?

Yes, we have a selection of classes at each hour and you may switch from speaking classes to Academic Skills, Cambridge Exams, IELTS and Business English, depending on your level.

Will I get a certificate?

Yes, all students who successfully complete their course receive a report and a certificate at the end of their studies which shows their level and duration of the course. A separate progress letter showing attendance is also available to students.

Students who take the online lessons can receive a certificate, but as this is a new course it is not yet accredited by the British Council.

Can you arrange my accommodation?

We can arrange a homestay (staying with a UK family in their home), a room at a Student Residence or, for long-stay students, a room in a shared apartment. All accommodation must be pre-paid and cancellation fees apply. Avalon has an Accommodation Officer who will arrange your booking and keep in touch with you before and during your stay.
