Why London?

London is the capital city of England and the UK, and with a population of around 13 million is the largest urban area in Europe

London has been a major settlement for two millennia, and was founded by the Romans, who called it Londinium.

Today London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence. It is one of the three largest financial centres in the world, is home to the headquarters of more than 100 of Europe's 500 largest companies, and has

the most international visitors of any city in the world. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions. London's Chinatown is the largest in Europe. The London Underground network is the oldest underground railway network in the world.

In 2012 London will become the first city to host the Summer Olympic Games three times.

And last but not least, London is home to London Study Centre!

Why you should come to study English in London

- 1 London is the capital of the UK: the home and the birthplace of the English language
- 2 London is the most diverse city in the world: you can experience new cultures, make new friends, and become more independent
- 3 Learning English is great, but learning English in London is even better. Get one of the world's most exciting cities thrown in at no extra cost!
- 4 London has a reputation for academic excellence: there are lots of opportunities for further study or career progression
- 5 You can improve your English rapidly: you can practice your English all the time, not just in your class!

London has everything that international students could possibly want!

London is a global city, always changing, always exciting. It is home to more than 90,000 international students from over 200 different nations, more than any other city in the world.

Studying and living in London can be one of the most exciting and rewarding experiences of your life, opening the doors to a fantastic future.

If something is happening in art, in science, in business, in politics, in music, in industry, in high or low culture, or in life, the chances are that it is happening here in London.

Not only does London enjoy world class museums, galleries, monuments, churches, famous buildings, but it also has clubs, concert venues, musicals, theatres and of course shops! What's more, many of the best London attractions are completely free!

The Olympic Games (27 July - 12 August) dominate the list of events in London during 2012. However, as you can see below, London has many world-class sporting, musical and cultural events throughout the whole year.

Private Tuition

Intensive, flexible programmes to suit your individual objectives

You may have very specific objectives, with the result that a group course is not right for you. If so, private tuition is the ideal solution.

With a private tuition course, you receive the dedication of a personal tutor who will create a programme just for you. At the beginning of your course, we will perform a detailed analysis of your objectives and will obtain regular feedback from you to make sure your objectives are met.

Some students choose to do combine private tuition with one of our group courses (e.g. Prestige English, Executive English etc), so that they spend half the time in a group and half the time in private tuition.

If you wish, you may also choose to take your individual tuition with one or two friends or colleagues - making it a 2:1 or 3:1 course.

Course options

You can choose to study as little or as much as you want. Most of our private tuition students choose to study for between 10-15 hours per week. This flexible approach means that you have control of the intensity of your course and schedule.

Course structure

Individually structured course to meet student objectives

“It’s a good opportunity to improve particular skills, and has also given me a greater understanding of my English ability.”

José Luis

Is this course for me?

There is no ‘typical’ private tuition student. You may believe that a group course is not the best solution for you, or you may have limited time available due to a busy career or home life.

Students choosing private tuition do so for a number of different reasons, such as:

- > priority focus on specific areas of interest
- > preparation for an important presentation at work
- > increasing confidence in preparation for an English language conference, seminar or meeting
- > increasing overall level of confidence in all aspects of English language
- > wish for tutor to focus 100% on your own individual objectives

The results

By the end of the course you will be able to:

- > significantly improve your performance in priority areas
- > understand your own strengths and identify future areas of focus
- > speak with greater confidence, fluency and accuracy
- > use a greatly increased vocabulary

What happens in class?

Some students identify a specific area in which they need to improve. This requires totally personalised and focused training which a group course may not be able to provide.

All our individual tuition programmes include a detailed needs analysis leading to an individual training programme ensuring that we maintain complete focus on the objectives that are established.

Helping you in London

We provide a range of other services to make your stay comfortable

Accommodation

Many of our students ask us to arrange accommodation for some or all of their time in London.

Choosing the right accommodation is very important: our Accommodation Officers will listen to you and match you with the best choice. We know how much your home life affects your happiness and your studies.

This is why we take great care in choosing and monitoring the accommodation we provide. We have worked with several of our accommodation providers for over 10 years. We also work with accommodation agencies that are registered with the British Council, in order to ensure good quality accommodation.

To improve your experience in London we can help you find comfortable, good value accommodation during your stay. We offer the following choices:

Homestay

At our homestay accommodation, the hosts treat you as a full member of the household, eating together and sharing the common living areas. This gives you regular contact with English speakers and

an insight into English life. Different meal plans are available. All of our homestays conform to British Council requirements, and are chosen for the warmth, care and concern they show our students.

Private Home

This is self-catering accommodation in a private home. Whilst there may be less direct contact with the host, private home accommodation is a great way to meet other students.

Student Residence

Staying in a residence with other young adults gives you independence and freedom. We have several year-round residences less than 20 minutes away from LSC, and in addition we have a year-round female-only residence.

We offer single and twin rooms in homestays and private homes; and single, twin and triple rooms in student residences. Our prices are shown on our website and our price list.

We regularly inspect all our accommodation so that you will be happy.

Important information regarding visas

Visas

If you are from the European Economic Area (EEA - European Union countries plus Iceland, Norway and Liechtenstein) or Switzerland, you do not need a visa to study English.

If you are from outside the European Economic Area (EEA) you are very likely to need a visa to study English.

There are three types of visa:

	Length of visa	English level required	Right to work?	Right to extend in the UK
STUDENT VISITOR VISA (SVV)	Max 6 months	No minimum	No	No
EXTENDED STUDENT VISITOR VISA (ESVV)	11 months	No minimum	No	No
GENERAL STUDENT VISA (GSV)	1 week — 3 years	Minimum CEFR B1 (Intermediate)	No	Yes

For all types of visa you must prove that you have enough money for your stay (up to a maximum of 9 months). This is defined as the cost of your course plus £800 living expenses per month.

For the General Student Visa you need

to show that you have intermediate level English. You can take our written and speaking test to do this via the internet. LSC has a Highly Trusted Sponsor rating on the UK Border Agency's Register of Sponsors, which means that we are able to

enrol international students under Tier 4 of the Points Based System.

For more information about visas please contact LSC for our guide to the UK visa system by writing to us at enquiries@lscuk.co.uk
