Combine this with our use of modern technology such as interactive projectors; all with prestigious accreditation from the British Council and it is easy to see why we are one of the leading English language providers in the UK.

Our teachers all go through continuous professional development and training in how to make the most of the latest technology to effectively engage with and teach our students.

All students at Twin have access to online English virtual worlds in which they can interact with their classmates and teachers outside of class times in a relaxed and fun way.

English progression chart

This chart shows the progress that students can make on a Twin English language programme. All students are given a test on their first day at Twin and then placed into a suitable class for their language ability. Students are then tested regularly to allow us to monitor their progress and improvement. On average, students take ten to twelve weeks to advance from one English level to the next.

Group programmes

Twin has extensive experience of running tailor-made programmes for international groups. We understand that groups of young people are often looking for more than just academic tuition when they come to the UK, so Twin offers students the chance to combine their language course with education about British culture.

Students can learn about the things that make Britain unique, like English football clubs, the Royal Family and the country's rich history. All students are offered sightseeing tours of iconic British landmarks like Buckingham Palace, the Houses of Parliament and famous shopping areas like Carnaby Street and Oxford Street.

Group courses at Twin emphasise learning in an active and engaging way, with a focus on speaking and interaction between students. International students find they improve their English pronunciation by speaking to students from other nations. The mix of nationalities in Twin group courses is a deliberate choice by the school to create an environment reflecting London's multicultural population.

All of the homestay accommodation provided by Twin is within easy reach of the study centres.

The Twin Guardianship Service is available for younger students who are in full-time education in the UK.

- Shared kitchen
- En-suite toilet and bathroom facilities available
