With over 15 years' experience in teaching English, you simply won't find a better Young English Learning Programme in Central London. Our three YES Programmes are accredited by the British Council and ISI. Our teachers have special training to teach young learners at all levels of English from beginners (A1 CEFR - Common European Framework of Reference) to advanced (C1 CEFR) levels.

We incorporate drama, project-based exercises, Content & Language Integrated Learning (CLIL), arts & crafts and music into our programmes to create a fun and unforgettable experience for all students (10 to 17 year-olds).

Our two main forms of accommodation for the three YES programmes are home stay (for Group & Individual Programmes) or our new Hall of Residence accommodation at the UCL Campus (one of the top five universities in the UK) for our Summer School students, with a garden, free internet connection, games room and great social activities.

Not only do we achieve amazing results, our students also have great fun learning English, making new friends and experiencing the various treasures of London.

# Group Programmes

**Tailored to meet each group's specific requirements and budget. We are able to help with exam preparation, Content & Language Integrated Learning (CLIL) or General English. Our tailored courses ensure that each achieve remarkable results, while enabling the students to experience the fantastic variety of British culture in and around London.**

## Classes

We offer classes to all levels and we incorporate a variety of methodologies to keep our learners engaged and make their learning experience enjoyable and memorable.

Our teachers know how to make learning a new language fun! What makes us unique is that we pay special attention to how young people learn and how we teach them!

**Tailored Programme:** we will work with you in identifying and developing a programme for your specific group's needs.

**Exam Preparation:** we offer an excellent exam preparation programme for groups, whether you are looking to prepare for your syllabus requirements, Cambridge exams or IELTS.

**Content & Language Integrated Learning (CLIL):** students will not only be able to improve their English but also learn about our culture and history. A lot of interesting reading activities from authentic materials are used. Our students love them!

**General English:** these lessons are imaginative and structured to allow maximum time to learn and practise new language.

Students will build their English vocabulary and learn colloquial English, idioms and grammar to help them become as fluent as possible. We use interesting textbooks, videos, games and group activities to share and practise how English is used by native English speakers every day.

## Conversation Class:

Conversation classes are designed to improve students' fluency and pronunciation. Our English Conversation Classes are a great way to get some extra 'talk time'.

## Certificate and course report

Students will receive a certificate and a course report at the end of their stay.

## Accommodation Home Stay

A Home Stay makes learning English in London even easier. Why? Because your hosts will be native English speakers – and there's no better way to practise what you learn in your English lessons than by chatting to people who live here.

Breakfast is usually included and other meals can also be included if you want them. Rooms are cleaned and bed linen and towels changed weekly. You'll have your own house key and your host is there to offer help, advice and take an interest in your wellbeing.

As London is a large, multi-cultural city, the families offering Home Stays come from many ethnic backgrounds, but English is always the main language spoken in the house. No one else in the house will speak your mother tongue, unless you specially request it. But be warned – your English lessons may go to waste if you spend all your time out of school speaking your own language!

For us the students safety is paramount, all home stay accommodation is in accordance with the standards required by the British Council, giving the students a safe environment while they are away from home.

## Social Programme

We offer a tailored social programme for our groups. This may include excursions to the main attractions in London; museums, parks, historical buildings, galleries and many more.

- Vocabulary – Parts of a castle
