great choice

Scarborough provides a wide range of entertainment for people of all ages, such as the Sea Life Centre, Scarborough Art Gallery and the unique Spa Complex. The two main beaches provide a great source of enjoyment - the South Bay, with its fishing harbour, marina, cafes, and amusement arcades; the North Bay with its watersports and close-by parks. Both bays are separated by the magnificent medieval Scarborough Castle.

lively nightlife

With many traditional Yorkshire pubs offering live music, four nightclubs, two cinemas, several theatres staging concerts, ballets and summer shows, a casino and a wide range of restaurants and bars, it is easy to find something to do during the evenings. Scarborough is also home to the famous Stephen Joseph Theatre which hosts original plays by resident playwright Sir Alan Ayckbourne, before reaching London's West End.

The resort also provides a great choice of high street shops and boutiques, as well as an indoor shopping centre. The pedestrianised town centre also boasts inviting cafes and bars.

interesting lessons

cutting-edge technology

Anglolang has a modern approach to teaching, for example, most classrooms are equipped with interactive whiteboards. These touch sensitive whiteboards increase student interaction and make lessons more dynamic. Teachers also use digital software for English language learning. These modern teaching methods make learning highly enjoyable.

flexible course structure

Anglolang's teachers consult their students and then tailor lessons to meet their needs. This is known as the 'negotiated syllabus' which gives students flexibility and choice. A variety of up-to-date and motivating teaching materials are used, for example, DVDs, CDs, newspapers, TV, course books and authentic texts.

topic-based lessons

Lessons are based around topics, such as work, travel or current affairs. Topics are chosen in consultation with students as part of the 'negotiated syllabus'.

skills areas

Teachers also focus on developing speaking, listening, reading and writing skills. Speaking, for example, is improved through discussion, role-play, mini-presentations and pronunciation activities. Students are helped

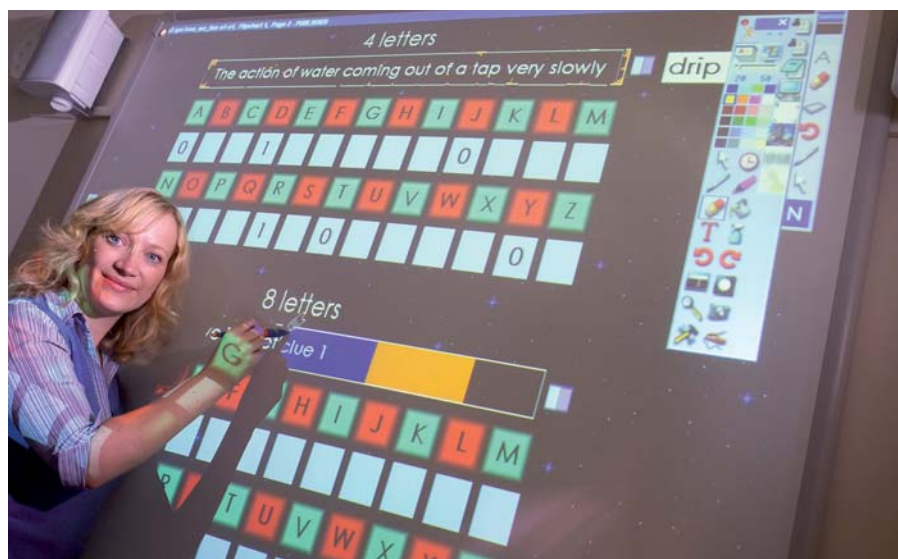

to read faster and enrich their vocabulary through authentic texts. Writing for communicative purposes, such as letters, reports and essays, is often practised as homework.

grammar

Grammatical structures are introduced and reviewed according to the needs of students when negotiating the syllabus.

vocabulary development

Vocabulary is a very important part of all lessons at Anglolang. Teachers give advice on how to effectively record, learn and activate vocabulary.

intensive general English
